Condize

Preface

We are not service providers, we are partners. Your success is also ours and we take pride in this. Welcome to our company profile...

Our Story

2013 “Software House”

Condize Started out in late 2013 as a software development company making simple websites built from the ground up. Expertise was gained and diversity was attained, so we started programming ready-made scripts for the public to use.

The story goes on. A few years later we have helped a few hundred people start their own websites using the solutions we have created and programmed.

That being said, we are now defined as a solution-driven company aiming to solve problems faced by businesses and individuals in an analytical and simple way.

2019 “Full-Fledged Creative Agency”

As of 2019, our portfolio encompasses not only simple programming solutions, but more complex ones. We are held accountable for a few hundred thousands of financial transactions that are made securely and efficiently. In addition, we craft beautiful User Interfaces & Experiences, manage Social Media for clients, and hold production needs if required.

2021 Empowering Different Businesses Around the World...

Goal-oriented workflow

A bulk of services.

Effective Operation Management

Managing the flow of the tasks assigned is not only important to the business but to the clients as well. It ensures effective and timely achievement of milestones while also delivering beyond expectations. This is not a service on its own to be listed but it demonstrates a strength point that differentiates businesses apart.

What we can do for you?

E-Shops

We bridge the user to your warehouse through our E-Commerce solutions. They can pay and browse securely while also enjoying a website that deeply resembles your brand's look and feel.

Web Development

Aligning with business objectives, we ensure a functional and secure experience to our customers. A website that only works on a full-fledged computer is of little value. We provide more of that value by making it cross-platform and responsive.

Apps

Fabrication of web-based or native apps while ensuring a well thought-out User Interface & Experience that matches your user persona and brand guidelines.

Branding

Creating a Brand's Visual Identity is of old origin within us. Be it a Logo to represent your brand, or a full Stationery Package Designed to appeal to your user base, we can make it happen.

Printing

Among our services for businesses is making their prints a reality. All marketing material can be printed right through us without the hassle of finding a reputable printing house. Read Business Cards, Flyers, Premium Packaging, etc...

Social Media /Graphic Design

Maintaining your social presence in a world full of competitors and distractions can be a daunting and time-consuming task. So instead, we are able to take that weight off your shoulders by optimizing your ads and speaking right to your audience with our designs and hence converting sales.

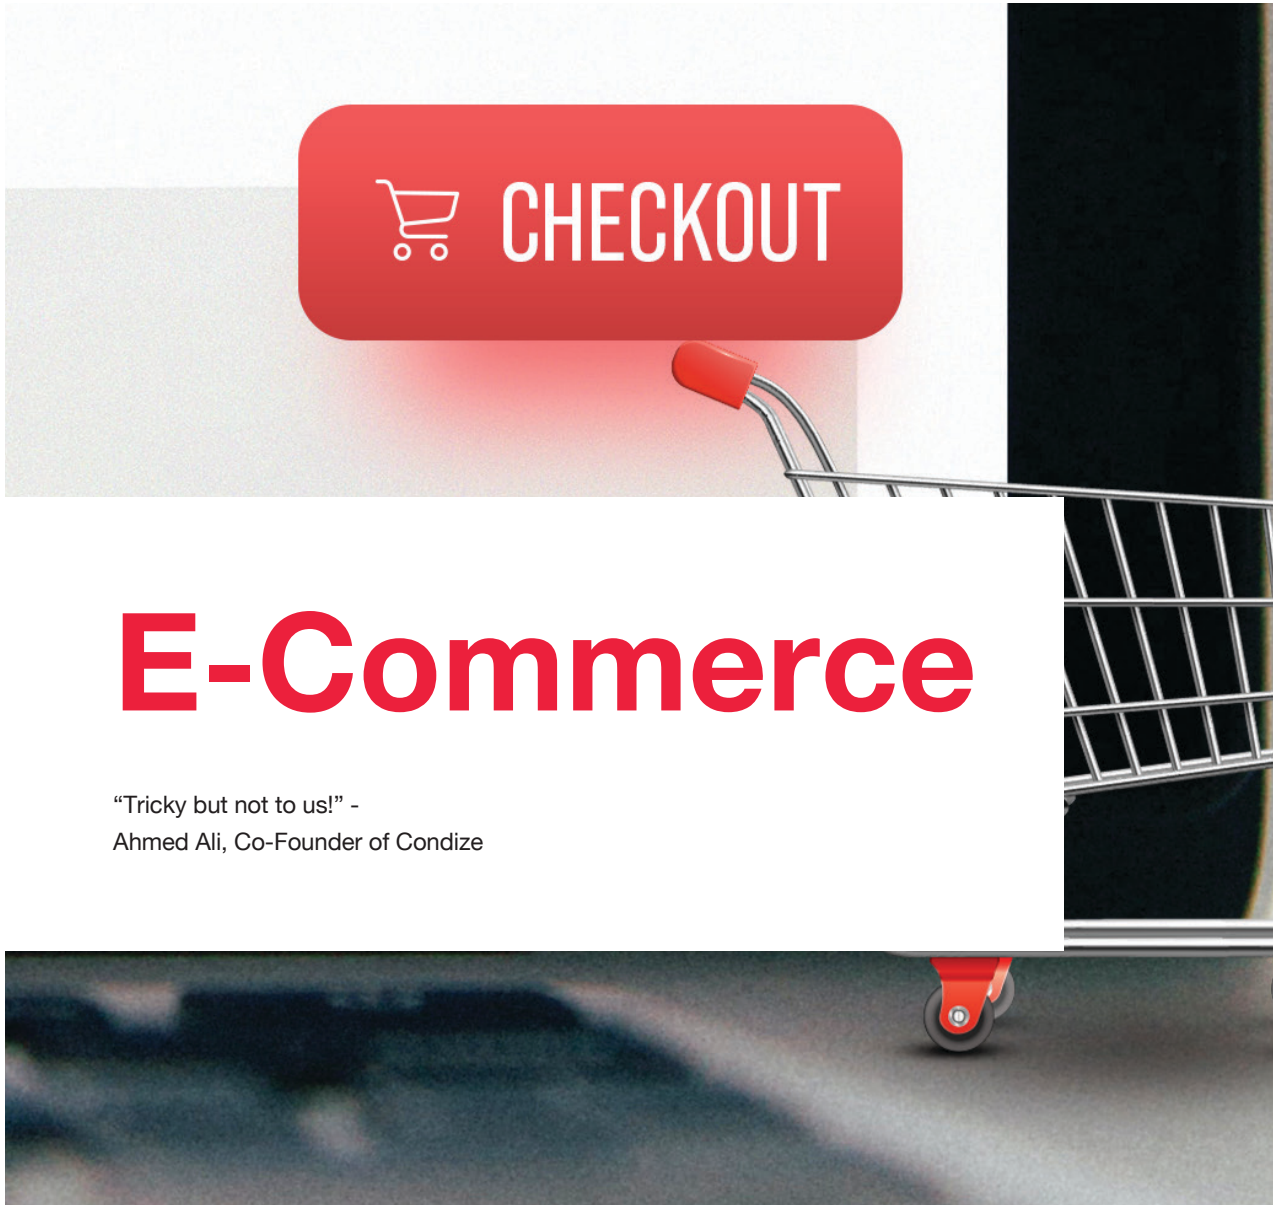

Marketing/Events

Offline and Online strategies for marketing your business makes it easier for potential customers to convert into repeat customers.

Packaging

We take your creative packaging of choice and take it to unfold it and convert into print-ready format while also ensuring an accurate fit and coloring. Produce a packaging that enhances brand image and satisfies the customer.

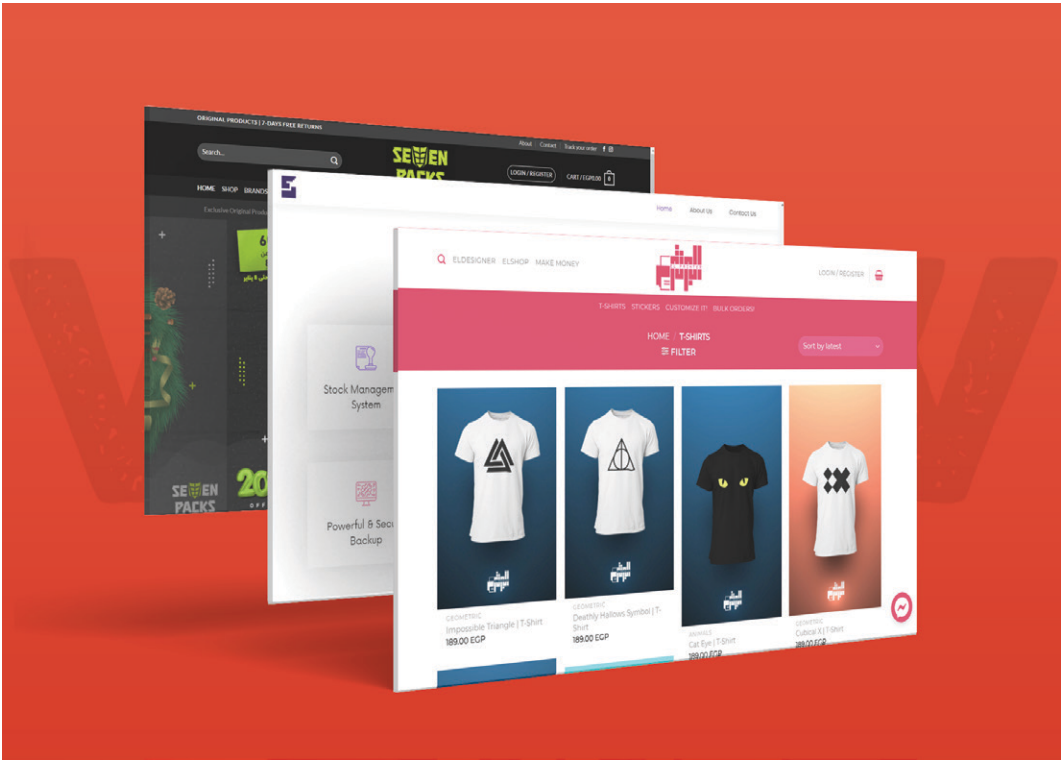

E-Commerce

“Tricky but not to us!” -
Ahmed Ali, Co-Founder of Condize

Our standards
“Not just making a website that looks good, but also one that works flawlessly in fulfilling the customer’s needs”
